important action for author

The topic of human trafficking is interesting and relevant. However, there are some points that need to be improved in this paper to strengthen the novelty, clarify the problem, to strengthen the analysis and discussion, and draw conclusions. Substantially, critical studies need to be emphasized in this paper to avoid presenting only repeating the existing findings.

Technical citation, writing accuracy, and correct translation of quotations, as well as critical analysis need to be recheck and considered again. More detailed feedback please read the attached reviewer notes.
