Dear Putu Doddy Heka Ardana,

The status of your manuscript has not changed since 21st September 2021. Thus, we are still waiting for the comments of the second reviewer. For this reason, you did not receive a status update. Our editorial office contacts and informs the corresponding author immediately after receiving a decision of the review process.

The second reviewer you nominated was changed last week, and the time for a new reviewer is now running.

Thank you for understanding.

Best regards,

Editorial office of the scientific journal Acta Montanistica Slovaca
