To: Doddy Heka Ardana <doddyhekaardana@unr.ac.id>

Dear Putu Doddy Heka Ardana,

We apologize for the inconvenience.

On June 28, 2021, prof. Beata Gavurova, PhD., MBA informed you that the submitted manuscript was included in the review process.

It was sent to the Editorial board to undergo a selection process and then a primary review process for consideration.

Your manuscript is still in the review process. When we have a decision, we inform the authors immediately.

We apologize for the slow progress given the current situation in the world, which is also complicated for editorial processes and for reviewers.

As our reviewers are too busy and we want to speed up the review process, we would like to ask you if you could nominate five qualified reviewers, from which we will select and send them the manuscript for review.

We need their workplace and contact details.

Please, keep in mind that a reviewer cannot have an affiliate in your workplace and also cannot have publications published with you in the last 5 years.

Thank you very much!

Have a nice and successful day.

Best regards,

Editorial office of the scientific journal Acta Montanistica Slovaca
